PRICE LIST-F. O. B. NEOSHO

March 1, 1925

PRICES: These prices are net f. o. b. Neosho, and are subject to stock being unsold when order is received. Transportation charges are paid by the purchaser upon receipt of the goods. If such charges were prepaid the prices would have to be higher.

Prices on large quantities will be quoted on a definite list of varieties, with number, size and age required.

TERMS: Cash with order for immediate shipment, or 25% with order, balance C. O. D. If order is to be reserved for later shipment, send 10% deposit with order and balance before shipping date, or if preferred, send 25% with order, balance C. O. D. Nursery stock is perishable and cannot be held over another season.

DATE OF SHIPMENT: Any time up to about May 15th.

PARCEL POST: Shipments can be forwarded by prepaid Parcel Post if customer remits 20 per cent additional to cover postage. We will refund any difference between this and the actual postage. Trees over 4 feet tall cannot be sent by mail.

HOW TO FIGURE PRICES: The rates apply only on varieties of the same kind or class. Any 5 apple and crabapple trees secures the 5 rate, but 2 apple and 2 peach and 1 cherry are charged at the each rate.

INSPECTION: Our nursery stock is inspected every year by state officials and every package bears their certificate of inspection. We also comply with the regulations of other states into which we ship.

"Yours for Growing Satisfaction"

In buying fruit trees and plants, shrubs, roses, etc., you must depend entirely upon the integrity of the nurseryman. Different kinds of trees and plants and different va-Different rieties of the same kind vary in habits of growth so that one variety is naturally smaller than another of the same age grown in the same soil and during the same season. But even if you can judge value in a tree or plant as to size of root system and top, there are two qualities of vital im-portance, vitality and trueness-to-name, which only time can prove.

It is, indeed, gratifying that so many of our old customers send us new orders and that so much of our business comes from their friends through their recommendations.

There is full justification in our saying to ou-"You can send us your order with full assurance of satisfaction.'

FIRST NATIONAL BANK, NEOSHO, Mo.

To Whom It May Concern:

We are very well acquainted with the men in charge of the Neosho Nurseries Co., and do not hesitate to say you can depend absolutely upon any statement they make as being correct, and if any mistake of any kind should occur in your dealings with them we know you will not have any trouble in getting it corrected.

(Signed) E. C. COULTER, Cashier.

GUARANTEE: We guarantee satisfaction upon arrival of stock. If a customer receives any stock that does not please him, we will replace it free of charge or refund the purchase price. Under this guarantee the customer must hold any unsatisfactory stock subject to our disposal, heeling it in if necessary, and must notify us immediately upon arrival and inspection of the stock.

Back of this guarantee is a Company with a paid-up capital of \$150,000.00. We own 200 acres in Phelps County, over 600 acres in Newton County, Missouri, and have every facility and equipment for growing, handling and packing nursery stock.

Our Brick Packing House in Neosho covers an area of 37,000 square feet and contains a refrigerating machine, which enables us to maintain the right degree of temperature necessary to keep stock in perfect condition.

REPLACEMENTS: These prices do not include any amount for replacing. Growth then depends upon factors over which we have no control. We cannot select your site or soil, prepare the ground, prune, plant, cultivate and supply water. The chief causes of failure are-exposure to drying winds or sun or to freezing when transplanting; failure to prune roots and tops; crowding into small holes cut in sod; failure to firm the soil closely about the roots; lack of cultivation.

TRUE-TO-NAME: The precautions and care we take in labeling our stock correctly is the best guarantee of trueness-to-name. If, however, any tree or plant should prove untrue to name it is agreed that we are not to be held liable for more than the purchase price or replacement without charge.

"You started a plan for me and you finished it. If you could hear the daily praise it would make you feel at least partially repaid for the extra trouble."

H. A. WANGERIEN, Santa Fe, N. Mexico. April 29, 1924.

(This refers to ornamental planting amounting to about \$200, for which we submitted plans.)

"To Whom It May Concern:

"If you are looking for trouble that will last for years, just buy any old nursery stock, save a few cents per tree at the start and lose many dollars in the long run.

"The Big Four Orchard Co., of Goodman, Missouri, had that experience. A few years ago we bought 1,700 apple trees, threw out 300 as too poor to plant, set 1,400 and at the end of the first season 400 were dead. "In the same field at the same season we set out 293 Neosho Nurseries trees at 20 cents more per tree and every tree made a

good growth.
"We have planted more Neosho trees since then with gratifying results. Our neighbors

also have the same experience. "That is why I urge planters so strongly to start right by buying Neosho Nurseries stock."

(Signed) BIG FOUR ORCHARD Co.,

Goodman, Missouri. C. L. Williams, Mgr. December 28, 1923.

"P. S.—I don't know how many trees we have set that came from your Nurseries, probably 1,500, but I do know not more than five failed to grow."

"I have cheaper price lists than yours, but am not interested in cheap nursery stock. When stock comes to me I examine it care-

fully-root and branch-your stock is the best of any planted on my grounds."

MRS. J. M. SMITH, Webster Groves, Mo.

April 30, 1924.

"I wish to inform you how the trees, shrubs, vines and plants that I purchased from you

have done and are doing.
"I might remind you that I bought apple, two kinds of grape vines, raspberries, goose-berries and strawberry plants, hydrangea A. S. and P. G.
"One hundred per cent grew and all are

doing nicely.

"I write this for your satisfaction and to let you know that I do appreciate the courtesy you always showed me and also to let you know that I am perfectly satisfied with our dealings together."

W. T. ROBINSON, Gray, Ky.
March 21, 1924.

"We are glad to say that all trees (200) purchased from you last year as well as two years ago, have all grown well. The trees when received were in better condition than quality of stock is of a superior grade."

E. V. RICE, Wayne County, Ohio.

Good condition is of vital importance. Distance from Neosho is no obstacle to satisfactory service.
